

Autumn Brings New Lines and Colorings In Suits, Coats and Frocks

Straight of line, and with longer coats are these new suits. These are the first facts which will impress you. The many fur trimmings will also be very noticeable, although many suits are also plain, the skill used in designing being sufficient to relieve and make attractive the rather severe lines.

Our tailored suits are all characterized by a superiority of workmanship which appeals to women who like their suits correctly tailored and the variety in detail, material and coloring affords ample choice.

The new Fall Coat enters now. The day of the Dolman is over, and in its stead we have the smart coat in belted or loose model, with convertible or notched collar, and raglan or set-in sleeves. There are coats here for all weathers—all very attractive.

At the opening of the superior court for Washington county at Kingston, on Monday last, Judge Herbert W. Rathbun, counsel for defendant, filed and made argument on demurrer in the case of Myron Plympton against Dr. J. Devereux Barber, in a suit for \$15,000 damages for alleged neglect in treatment of wife of plaintiff, Ida E. Plympton, and as a result of the alleged neglect she died. Judge Rathbun's demurrer was on six grounds, all showing that the declaration of plaintiff was defective, showed no neglect, and under decisions of the supreme court, claimed that the judgment, which was not admitted in this case, was not actionable under the law.

The matter was argued before Judge Doran, and on Monday he handed down decision, the text of which follows:

"Doran, Judge.—The declaration recites that defendant, a physician, negligently attended Ida E. Plympton, that he did not treat attention between 10 o'clock a. m. and 9 o'clock p. m. on May 10, 1919, by reason of which lack of treatment she died. It does not say except inferentially that she needed treatment during the period named, or that treatment during the period would have prevented her death. It does not say that defendant knew she needed treatment during the period, or but for lack of proper care would have known it. Defendant sustained ten days allowed for plaintiff to amend if he so desires, and ten days thereafter, for defendant to plead or demur."

Alvin W. Mawson, who enlisted in the navy May 15, 1917, has been discharged and is now at his home in Pawcatuck. While in the service his left foot became entangled in a harrow and as a result the foot was amputated. At the time of his discharge he was at the naval hospital in Chelsea, Mass.

Mr. Mawson is a graduate of the Stonington High school and was prominent in baseball and football, leading the school teams to championship pennant winners. He was a ball player in this section, and had all the qualifications for a big leaguer.

The Rhode Island State League was organized at Peace Dale Sunday, with a six-team baseball circuit to comprise Westerly, White Rock, Shannock, Hope Valley, North Kingstown and South Kingstown. The delegates were Charles McCarthy, Joseph Clancy, Michael McCarthy, Howard Clancy, John W. Gamwell, James Kugler, John Hollander, Joseph Langworthy, Irving E. Wilbur, George E. Harvey, Simon W. Weaver, George E. Harvey, John A. Mitchell, Edward C. Wilson, and Albertus W. Hazard. These officers were elected: Albertus W. Hazard, president; George E. Harvey, secretary; John W. Gamwell, treasurer.

George E. Harvey of Wakefield, Irving E. Wilbur of Peace Dale, and Joseph Langworthy of Hope Valley were appointed a committee to draft a constitution and by-laws. The secretary was directed to notify each organization to appoint one member to serve on the schedule committee. The annual meeting is to be held in February. The sentiment of the meeting favored restricting players to Washington county.

Frank Booth of Westerly, at the second annual shoot of the Farragut-sea club, at Noosneck, Conn., on Sunday, won the sweepstakes special event, having shot 25 birds out of a possible 25. Jack Snow of Boston won second, and Walter Barlow of Scituate third. Shooters were present from every recognized gun club in Rhode Island, Massachusetts, Connecticut, and New York city, and more than 75 tried their aim at breaking targets.

Albert T. Slason of the Providence Gun club was high gun, his total of 92 out of a possible 100 equalling that of the professional—J. Fanning. In the class A event first prize went to Jack Snow, Walter A. Barlow second, and J. J. Lister won third money. In the class B event the first prize was won by L. N. Smith, the second by W. F. Clarke and J. E. Barlow. Mr. Chapman, Westerly, split third money. In the class C event first prize was won by J. W. LeCompte, A. H. Chapman second, and second money, and third money was divided by H. H. Robinson and Fred Browning. In class D Clarence N. Quinn won first prize, Fred L. Foster captured second money, and the third prize was won by Harry Austin.

The booty prize went to Levi Schmitt, who shot the feat of missing 99 out of a possible 100 birds. In a special event, Howard A. Slason, Jr., 14, son of Earl, high gun of the shoot, who was coached by his father, broke 12 birds out of a possible 25, while T. Lester Dillon, 15, son of the state champion, who was given a bounty by his dad, broke 14 out of a possible 25 birds.

Martin Chapman scored 80, A. H. Chapman 75, and Fred L. Foster 65. The 93 parishes, including Westerly, of the Roman Catholic diocese of Providence were represented at the meeting in Providence Sunday afternoon, to range for the triennial parade in that city Sunday, Oct. 5, of the Holy Name societies of the state. It is expected that the parade will be a grand one. The exercises at the conclusion of the parade will be held on Dexter training ground and will include benediction of the blessed sacrament.

Several former service men of Westerly took part in the big American Legion parade in Providence Monday night. All paraders were in civilian clothes in conformity to the legion rule that it is strictly a civilian organization.

A reception was given at the home of Mr. and Mrs. Calvert Cottrell in

SEVERAL PERSONS SHOT IN RIOTING AT CARNEGIE
(Continued from Page One)

confidence that in view of the fact that the steel workers did not cause a general riot, it was predicted in some quarters, they would have more men at work on the second day than the first.

Union Leaders Highly Pleased.

The union leaders at headquarters of the committee of the steel workers declared that they were highly pleased with the answer made by the thousands of organized and unorganized men who moved into the industry. William Z. Foster, secretary of the national committee, predicted that the intensive campaign to unionize the steel industry would be successful. He said that the steel corporation but independents as well, would result in bringing many more thousands out on strike.

While corporation officials refrained from going into figures, their statements on the situation did not agree in any particular with the figures issued by the Carnegie Corporation. It was claimed in some quarters, that not more than 15,000 workers in this district answered the call. It was admitted by a failure of enough men to report. Where this occurred the furnaces were banked and the men who reported were concentrated on other furnaces. No man was sent to work who was given something to do. In the city of Pittsburgh the steel corporation's plants were fully manned. It was given out.

Operating Plants.

At Homestead, Duquesne and Braddock where the steel corporation has immense plants, there was a sharp conflict of claims as to the effectiveness of the strike. The Carnegie Corporation through a representative said that little difficulty was experienced in operating the works at those places. Mr. Foster claimed there were 9,000 men on strike at the Homestead works, the scene of several bitter labor struggles in years past. The company said this was not true as there were not many more men employed there than 9,000 and that the works was not crippled.

Foster said his reports showed 5,000 men idle at Braddock and 12,000 in all the plants at McKeesport and Duquesne.

There were many idle men noticed on the streets of Homestead, McKeesport, Duquesne and Braddock during the day, but whether they were largely strikers or men working on the night shifts could not be definitely determined.

According to officials of the Jones and Laughlin Steel Company, that concern was not inconvenienced by the strike today. There were a few defections followed by a few more at the noon hour, but the company said these were about the normal number of men who lay off each day.

Majority of Strikers Foreigners.

Virtually all reports from the side of the employers mentioned that the great majority of strikers were foreign born and that, generally speaking, the American born workers did not respond to the strike call. It has been repeatedly admitted by union leaders that a majority of the men employed in the steel industry are of foreign birth and that it was not natural that a large percentage of them

RHEUMATISM LEAVES YOU FOREVER

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poisons Start to Leave the System Within Twenty-four Hours.

Every druggist in this country is authorized to say to every rheumatic sufferer in this vicinity that if two bottles of Allenburh, the sure conqueror of rheumatism, does not start you again, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenburh has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiable and where the patient was helpless.

Allenburh relieves at once. Immediately after you start to take it the good work begins. It searches out the uric acid deposits, dissolves the sections and drives rheumatic poison out of the body through the kidneys and bowels.

It's marvelous how quickly it acts. Blessed relief often comes in two days, and even in cases where the suffering is most painful all traces disappear in a few days.

Mr. James H. Allen, the discoverer of Allenburh, who for many years suffered the tortures of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenburh decisively conquers this worst of all diseases, and he has instructed Lee & Osmond, Co. to guarantee it in every instance.

should figure in the strike.

Setting aside the question who is nearest to the accurate number of men out, corporation representatives tonight said they were of the opinion that the strike probably would prove a bitter and possibly a long one. Both sides, it was said, had too much at stake and the principles involved were too vital to be brushed aside in a moment of expediency.

Setting the questions at issue, J. P. Morgan's telegram to E. H. Gary facilitating the latter on his stand on the open shop question was pointed out as additional evidence of the stand large capital has taken in the present struggle.

To the great relief of most people in Allegheny county, the strike was inaugurated without any serious disturbances anywhere. There was a clash between Pennsylvania state police and a crowd in Clairton which resulted in the arrest of a score of persons charged with inciting to riot and the injury of a number who were clubbed by the police for resisting orders to disperse. In the city of Pittsburgh there were two arrests made of men who refused to move away from a steel plant when ordered by local police.

Steel Communities Heavily Guarded.

Rain fell in the early morning when the day shift went to work and fell heavily all afternoon, which had a dampening effect upon the gathering of crowds. Evening iron and steel community in the district was heavily guarded and ample protection was given to all men who wanted to work. Corporation representatives tonight expressed satisfaction with the policing of these communities and said the large number of men who were out for work was partly due to this protection. In most of the steel communities crowds are not permitted to congregate in large numbers.

It was said that the question of financing the strike will be one of the things to be considered.

Secretary Foster sent out an appeal to union labor today for more organizers. He said that he has not sufficient men in this district to carry on the work and that he needs more men signed by men wishing to join the unions.

No Intention of Picketing.

Secretary Foster today said there was no present intention of picketing plants. Men, he said, have been warned to stay away from the plants and he has announced that attorneys will be engaged to obtain the release of all men arrested yesterday at North Clairton and today at Clairton. Counsel for the steel workers, it was said, also threatened to bring action against persons responsible for the alleged illegal arrest of strikers.

I. W. W. Literature Confiscated.

Some of the foreign population of Braddock, Rankin and other towns in the lower Monongahela Valley were excited following the receipt of letters threatening the lives of men, their wives and their children and the burning of their homes if they do not remain away from their places of employment. The police are making an effort to find the senders. Some Industrial Workers of the World literature was also confiscated in Braddock.
